

Alignment Editor Components

Here is the default layout of the editor:

The Alignment Editor components:

For example, let's assume that the coordinate of the first visible base of the row is N , but the row contains K gaps before the position N . The starting offset value will be $N-K$. The same rule is true for the ending offset.

You can turn off the Sequence offsets by unchecking the Actions View Show offsets main menu item or View Show offsets context menu item.
