

The comment Annotation

General information about a file in GenBank or Vector NTI Sequence format, stored in the COMMENT sections of the file, is shown in UGENE in a special *comment* annotation in the *Annotations Editor*.

The information, for example, may include the name of the file author, creation date and last modification date for the file, and so on:

The screenshot shows the UGENE Annotations Editor interface. The main window displays a tree view of annotations for a file named "2xCyPET-3xFLAG-6 features [2xCyPet-3xFLAG-...". The tree is expanded to show a "comment (0, 1)" annotation. The comment content is displayed in a table-like format with two columns: "Comment" and "1..4340". The comment text includes the author name "Demo User", creation and modification dates "Thu Dec 23 13:29:41 2010", and the object name "2xCyPET-3xFLAG-6xHIS/pDONRP2R-P3 (p3')".
