

Metainformation

The metainformation is added when you create / edit the schema with the *Query Designer*. It is not required for running the schema and is skipped when the schema is created manually, for example:

```
#Open Reading Frame surrounded by repeat units
```

```
query ORF-Repeats {  
  Repeat {  
    type: repeats;  
    min-length: 10;  
  }  
  
  ORF { type: orf; }  
  
  Repeat.left--ORF.unit {  
    type: distance;  
    distance_type:  
    end-to-start;  
    min: 0;  
    max: 5000;  
  }  
  ORF.unit--Repeat.right {  
    type: distance;  
    distance_type: end-to-start;  
    min: 0;  
    max: 5000;  
  }  
}
```
