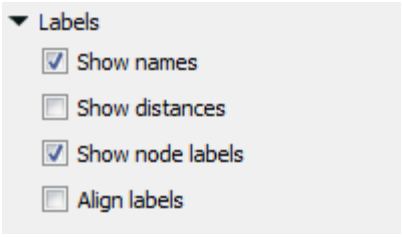
Showing/Hiding Labels

When you open a tree all the labels are shown by default.

To hide the taxon (sequence name) labels select the *Show Labels* toolbar button or in the *Tree settings Options Panel* tab uncheck the *Show Names* item.

To show the distance labels uncheck the *Show distances* item.

To hide the node labels uncheck the *Show node labes* item.

To show the labels again check an appropriate item.


Labels settings in the *Options Panel*:
