Adding Existent Element

The elements are stored in the files with the .etc extension.

The directory to store the elements can be set in the *Application Settings* dialog.

To add an element from a file to the Workflow Designer select either Actions Add element with command line tool in the main menu or the following icon on the toolbar:

In the appeared dialog select the required .etc file. The element is added to the group on the *Palette* and appears on the *Scene*.
