

Network

The screenshot shows the 'Application Settings' dialog box with the 'Network' tab selected. The left sidebar lists various settings categories: General, Resources, Network (highlighted), File Format, Directories, Logging, Alignment Color Sch..., External Tools, Genome Aligner, Workflow Designer, and OpenCL. The main area is titled 'Network' and contains several sections: 'Preferred Web browser' with radio buttons for 'System default browser' (selected) and 'Custom browser' (with an empty text field and a browse button); 'Remote request settings' with a 'Remote request timeout' set to '60 sec'; 'Proxy' settings including 'Type' (HTTP selected), 'Server' (empty text field), 'Port' (0), a checkbox for 'Use authentication with HTTP proxy' (unchecked), and fields for 'Login' and 'Password'; a checkbox for 'Do not use proxy on following addresses (separate line for each):' with an empty text area; and 'SSL settings' with 'Secure Socket protocol' set to 'SslV3'. At the bottom are 'OK', 'Cancel', and 'Help' buttons.
