

# Exporting Workflow as Image

Workflow workflow can be exported as:

- Raster image (\*.png, \*.bmp, \*.jpg, \*.jpeg, \*.ppm, \*.xbm, \*.xpm)
- Vector image (\*.svg)
- Portable document (\*.pdf, \*.ps)

To export a workflow select the *Actions* *Export workflow as image* item in the main menu or use the Ctrl+Shift+S keyboard shortcut. *Export Image* dialog will appear. Enter a file name and choose the file type.
