## **Moving Subalignment**

To move subalignment there are different ways:

- 1. Select a subalignment and drag and drop it. The subalignment will be moved.
- 2. With a help of the Space, the subalignment will be moved to the right by the size of the selection. With a help of the Backspace, the subalignment will be returned to the first state.
- 3. With a help of the Ctrl+Space, the subalignment will be moved to the right by one column. With a help of the Ctrl + Backspace, the subalignment will be returned to the first state.
- 4. With a help of the Ctrl, you can join the parts of alignment. When there is a fragment of characters, surrounded by gaps in a row, select continuous block without gaps on Ctrl pressed and move the selection to the right/left.
