

db_xref Qualifier

Some files in Genbank format contain the *db_xref* qualifier. A value of this qualifier is a reference to a database.

NC_004718 features [sars.gb]		
3'UTR (0, 1)		
5'UTR (0, 1)		
CDS (0, 14)		
CDS	CDS	join(265..13398,13398..21485)
codon_start		1
db_xref		GI:30124074
db_xref		GeneID:1489680
gene		orf1ab
locus_tag		sars1

When you click on the value a web page is opened or a file is loaded specified in the reference. The loaded file is added to the current *project*.
