## Sorting Sequences

You can sort sequences in alignment using the Sort submenu in the Actions main menu or from the context menu. Also, you can use the General Options Panel tab:

It is possible to sort sequences in the selected rows region or the whole alignment. There are six ways to sort sequences:

- By name, ascending
- By name, descending
- By length, ascending
- By length, descending
- By leading gaps, ascending
- By leading gaps, descending
