

# Assembly Browser Window Components

An Assembly Browser window consists of:

## Assembly Overview

By default, shows the whole assembly overview. Can be resized to provide an overview of an assembly part.

## Reference Area

Shows the reference sequence.

## Consensus Area

Shows the consensus sequence.

## Ruler

Shows the coordinates in the *Reads Area*.

## Reads Area

Displays the reads.

## Coverage Graph

Shows the coverage of the Reads Area.

See the example below:
